

Electronic Power Solutions History

Leaders in Electronic Motor Control

<p>1991 - 2000</p>  <p>PDL ELECTRONICS</p>	<p>PDL Electronics established in Australia following distribution through ASEA/ABB. John was instrumental in this phase, and became the National Sales Manager for PDL Electronics Australia, and later General Manager of PDL Australia based in Brisbane, whilst Andrew operated at a State level in Victoria and NSW. PDL grew to become the second largest supplier of variable speed drives within Australia.</p>
<p>2000</p>	<p>Electronic Power Solutions Pty Ltd was established to promote a technical sales network for the PDL Electronics drives range primarily on the Eastern Sea Board of Australia. .</p>
<p>Late 2001</p> 	<p>PDL Holdings Ltd was acquired by Schneider Electric which included PDL Electronics Ltd. Schneider Electric had an established yet limited VSD business primarily through the wholesale distribution network and switch board builders with the Telemecanique brand.</p>
<p>2002</p>	<p>EPS directors were appointed as Drive Solution Specialists under contract with Schneider Electric to support the Schneider Sales network in the Eastern States and to assist with integrating the PDL and Telemecanique brands, and to drive the customisation of product.</p>
<p>2005</p>	<p>Schneider Electric released the Altivar 61 and 71 ranges of AC drives to replace the current range of Telemecanique and PDL controllers.</p>
<p>2005</p>	<p>EPS initiates the introduction of Active Harmonic Filter Technology to the Schneider range with the Accusine product range.</p>
<p>2006</p>	<p>PDL Electronics in Napier New Zealand ceases manufacturing.</p>
<p>2001 - 2010</p>	<p>EPS are instrumental in seeing the growth of the Schneider Electric AC Drives business in excess of 200%. Success has ranged from major infrastructure and mining projects across Australia and growth in core business areas in all sectors of the market</p>
<p>2010</p> 	<p>Schneider Electric and EPS enter into a Drives Integration and Sales Agreement to offer the Schneider product and support directly to the Australian market. EPS offer full support in all aspects of AC drives to customers and further the customisation business.</p>
<p>2012</p>	<p>John Bosch and Andrew Johnson take full ownership of Electronic Power Solutions Pty Ltd, based in Brisbane.</p>
<p>2012</p> 	<p>EPS enters into Sales Agreement with Danfoss Australia to maintain the SE Queensland territory for technical drives sales across the diverse range of market areas.</p>
<p>2013</p>	<p>With growth year on year, EPS establishes a new sales and warehouse facility in Brendale Qld.</p>
<p>2014</p>	<p>Despite the economic downturn, EPS continues its business growth and furthering its reputation as a specialist technical drives company.</p>
